RFP HSS 19 037

**IMPLEMENTATION AND PROMOTION OF EVIDENCE BASED
HEALTHY LIFESTYLE CHANGE PROGRAMS**

Questions due by 3/13/19

1. Section II.C.1 Scope of Services, Healthy Lifestyle Program for Cancer Survivorship
Paragraph c. Train and certify program instructors
Page 6

Question: Is this RFP for an existing project currently contracted through a vendor, or is this a new project?

Answer: This is an existing project. The current vendor is YMCA of Delaware.

2. Section II.C.2. Scope of Services, Prediabetes
Paragraph a. Implement a National DPP statewide.
Page 6

Question a: Does Delaware have a current license to conduct Cancer: Thriving and Surviving or would the vendor need to acquire a license using money from the \$100,000 allocated budget?

Question b: Is there an existing online prerequisite training program or would the contractor be responsible for developing one?

Answer a: Delaware holds a license for the Cancer: Thriving and Surviving.

Answer b: This is a pre-developed program with existing training modules that the contractor is required to use.

3. Question a: The CDC website indicates that Christiana Care and the YMCA of Delaware currently offer the National DPP statewide. Is this project meant to develop additional National DPP programs?

Question b: If the RFP calls for a new National DPP to be established, is the \$150,000 allocated for year one in the RFP to include the cost of participants not covered by private insurance, Medicaid or Medicare, which the CDC estimates to be \$500 per participant?

Answer a: The project is meant to either work with existing or create new National DPPs.

Answer b: The estimated per person cost needs to be determined by the applicant, although the CDC estimates it to be approximately \$500 per person. Some payers reimburse for the National DPP and others do not. The \$150,000 includes everything; National DPP development, implementation and participation coverage.
